

**Nove artisti - "Un sogno antico e sempre nuovo"**  
**(Nine artists - "An Ancient Dream That is Always New")**  
**San Vidal Gallery - Venice - March 1998**

The vegetable garden tosses and turns under the lashing of the wind: it is a movement that the artist from Udine captures with a psychological immediacy. All of a sudden a face appears; and it is almost a metamorphosis that takes place. Skilful work and cultural acumen result in lively and captivating expressiveness. The painting becomes a vibrant mark of the soul.
